

LEICESTER BALL HALL ATTRACTS FAMOUS FACES

The Morningside Leicester Arena, built primarily as a sports arena with British League Basketball in mind, is proving to be a popular multi-events venue. Having already hosted comedy and music evenings with John Bishop and Peter Andre, it is proving an attraction for many other sell out events.

Other functions as diverse as a religious event involving the Archbishop of Canterbury and Bollywood join with weddings, exhibitions and large scale dinners to extend the ever increasing multi-functionality of the arena.

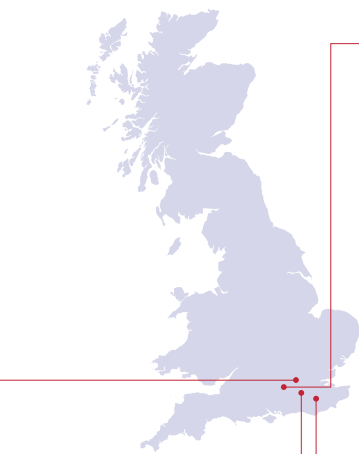

UPCOMING BALL HALLS

St Johns School Northwood, Middlesex

A Merchant Taylor Education Trust School, St. Johns is a Prep. School for boys age 3-13 years. Having outgrown their existing sports hall which is only one badminton court in size, the school has engaged Ball Hall Project Management to procure a new facility to reflect the ambitions of the school moving into the twenty first century.

The existing hall will be demolished and replaced by a three badminton court with changing rooms, storerooms and office. On the first floor is a meeting room, further office and large club space. A balcony overlooks the main hall. With over 350 retractable seats and a draping system the school will be able to transform the space for assemblies, prize giving and other functions.

St James School Ashford, Surrey

A four court sports hall with changing rooms and viewing across cricket pitches along with a new 4G artificial turf pitch which will enhance the sporting provision at this all boys independent school.

Leighton Park School Reading, Berkshire

A six badminton court main hall with changing rooms, office and social area along with a climbing/bouldering chamber. The first floor houses another social area along with three classrooms and a large fitness suite.

Tunbridge Wells Grammar School for Girls Tunbridge Wells, Kent

A five badminton size sports hall will soon begin in Tunbridge Wells. The main hall will include a dedicated gymnastics area. The facility will also boast a dance studio, changing rooms and staff office.

THEATRE OF DREAMS BALL HALL BY THE SEA

Kingshott School in Hitchin opens a State-of-the Art BALL HALL which not only meets all the needs as a multi-sport facility but also transforms into a performance, banquet, prize presentation or conference facility.

The school places great emphasis on both sport and drama, recognising the part they play in the individual development of the child. The facility adds a fantastic indoor sports option to their newly built all weather hockey pitch.

Kingshott Ball Hall has four badminton courts with changing rooms, staff office and a dance studio. The main hall is fully equipped with four cricket practice bays. A stairway leads to a control box for the sound and lighting systems when in function mode.

Full height black theatre drapes pull out around the hall and electronically operated tiered seating creates an auditorium for an audience of over 400.

For the schools prize presentation and other events there is included a "marquee" draping system which when used with the carpet system transforms the hall into a luxury indoor function venue.

Within sight of Blackpool Tower, Rossall School has engaged Ball Hall to add to its existing extensive outdoor sports facilities.

Situated a stones throw away from the North Sea and sandwiched between that and the Blackpool to Fleetwood tramline the new facility is a sporting gem on the coastline.

It is a six badminton court facility with sprint track, large fitness suite and meeting room.

Designed for a potential retractable spectator seating for 250 with audio-visual and a draping system, affords multi-functional options.

"We are delighted and enthused to be able to begin the build for the long awaited state of the art Sports Centre.

This will greatly enhance the School's current facilities for our students and will be a superb addition to the community."

Mr Chris Holt
Chair of Rossall School Governors

BALL HALL PROJECTS

INDEPENDENT SCHOOLS

1. ACS International School - Egham
